agile2learn.eu

Are you a teacher, trainer or an educator?

Unlock Your Teaching Potential with Agile2Learn

Enhance your teaching skills and pedagogical approach with Agile2Learn's modules. Gain insights into agile principles, project management, (digital) collaboration, effective communication, teamwork, and self-management. Elevate your professional development and bring innovation into your classroom. Join us on this transformative journey!

What we offer:

- **Blended learning course for educators** – 21 training modules to enhance your transversal competencies (agile, digital and transversal) + workplace learning guide
- **Communities of Practice platform** – a platform for sharing experiences and best practices with the implementation of the new educational approach (you can share your experience, ask questions or network with more than 200 users already on the platform)
- **Agile2Lean Curriculum** – Framework of training structure for your use in your professional development

Where you can find it:

On-line training, community and additional materials are available here: **https://cop.daissy.eu/**
